Approved For Release 2005/12/05 : CIA-RDP82M00097R002600180015-9

23 July 1971

So far as we know there are no outstanding issues involving the SIGINT and COMIREX reports (Item One) responding to questions posed by [] on FY-1973 issues. Thus, these papers, as well as the Algerian Estimate and Watch Report, probably can be handled without a Board meeting. There are factors, however, which make the scheduling of Item One on the agenda advisable although not essential:

- a. The significance of the subject matter with respect to the overall overhead problem.
- b. An opportunity for the Director, NRO to comment on whether these papers satisfy NRO needs as expressed in his request for USIB guidance.
- c. The COMIREX submission not only responds to the NRO questions but also provides program planning for the NRP for FY-1973 and beyond.

Alternatives:

1. Approve attached agenda. _____
2. Schedule Item One on agenda at a later date with telephonic concurrence of the Watch Report and Algerian Estimate. _____
3. No meeting next week, try and clear Item One by vote sheet action plus telephonic concurrence on other items. _____
